Valerian Okolie

Frontend Web Developer

Port Harcourt, Nigeria • Okolievalerian@gmail.com • +234 913 644 0301 • github.com/valerian-jay

SUMMARY

Frontend web developer with 7+ months of hands-on experience building responsive, modern websites using HTML, CSS and JavaScript. Skilled at turning a design concept into a clean, fully responsive, production-ready page. Expanding into backend development with Node.js to move toward full-stack work.

TOOLS I WORK WITH

Languages: HTML5, CSS3, JavaScript

CSS: Flexbox, Grid, responsive design, animations, glassmorphism / modern UI styling

Tools: Git, GitHub, GitHub Pages (deployment), VS Code, Chrome DevTools

Also exploring: Node.js, backend fundamentals

PROJECTS

Slucker Smag — Restaurant Website

HTML • CSS • JavaScript | valerian-jay.github.io/Slucker-Smag

Designed and built a modern restaurant website featuring a live shopping cart, menu filtering, customer favorites, and a fully responsive layout across desktop, tablet and mobile.

Automotive Website — Car Dealership Site

HTML • CSS | valerian-jay.github.io/Car-website

Multi-page automotive website (home, inventory, about, contact) focused on clean presentation, responsive design, and an engaging browsing experience for a luxury car dealership concept.

Personal Portfolio Website — In Progress

HTML • CSS • JavaScript | glassmorphism UI design

Self-designed developer portfolio built from scratch with a custom glass-panel visual system, scroll animations, and a fully responsive layout, including image and typography treatments tailored for mobile.
